# Industry Snapshot

## EMPLOYMENT

## WAGES

2-Digit Industry	Empl	Avg Ann Wages	LQ	5yr History	Annual Demand	Forecast Ann Growth
<b>Construction</b>	<b>5,046</b>	<b>\$56,899</b>	<b>0.79</b>		<b>512</b>	<b>0.6%</b>

Employment is one of the broadest and most timely measures of a region's economy. Fluctuations in the number of jobs shed light on the health of an industry. A growing employment base creates more opportunities for regional residents and helps a region grow its population.

Since wages and salaries generally compose the majority of a household's income, the annual average wages of a region affect its average household income, housing market, quality of life, and other socioeconomic indicators.

# Staffing Pattern

6-digit Occupation	Empl	Avg Ann Wages	Annual Demand
Construction Laborers	657	\$47,400	75
Carpenters	546	\$59,800	51
Electricians	355	\$66,900	41
First-Line Supervisors of Construction Trades and Extraction Workers	349	\$78,900	36
Construction Managers	246	\$102,200	22
Painters, Construction and Maintenance	217	\$46,700	20
Plumbers, Pipefitters, and Steamfitters	183	\$71,600	20
Office Clerks, General	159	\$44,700	17
Operating Engineers and Other Construction Equipment Operators	150	\$64,000	17
Project Management Specialists	127	\$89,900	10
Remaining Component Occupations	2,029	\$63,800	207
<b>Total</b>	<b>5,017</b>		

 The mix of occupations points to the ability of a region to support an industry and its flexibility to adapt to future demand. Industry wages are a component of the cost of labor for regional employers.

# Region Definition

**Ellensburg Workforce Drive Time 45 Min is defined as the following zip code tabulation areas:**

ZCTA 98068 (Kittitas County, WA portion)

ZCTA 98847 (Chelan County, WA portion)

ZCTA 98901 (Kittitas County, WA portion)

ZCTA 98901 (Yakima County, WA portion)

ZCTA 98902

ZCTA 98903

ZCTA 98908

ZCTA 98922

ZCTA 98925

ZCTA 98926

ZCTA 98934

ZCTA 98936

ZCTA 98937 (Yakima County, WA portion)

ZCTA 98939

ZCTA 98940

ZCTA 98941

ZCTA 98942

ZCTA 98943

ZCTA 98946

ZCTA 98950

ZCTA 98951

# Data Notes

- Industry employment and wages (including total regional employment and wages) are as of 2022Q2 and are based upon BLS QCEW data, imputed by Chmura where necessary, and supplemented by additional sources including Census ZBP data. Employment forecasts are modeled by Chmura and are consistent with BLS national-level 10-year forecasts.
- Occupation employment is as of 2022Q2 and is based on industry employment and local staffing patterns calculated by Chmura and utilizing BLS OES data. Occupation wages are per the BLS OES data and are as of 2021.
- GDP is derived from BEA data and imputations by Chmura. Productivity (output per worker) is calculated by Chmura using industry employment and wages as well as GDP and BLS output data. Supply chain modeling including purchases by industry are developed by Chmura.
- Postsecondary awards are per the NCES and are for the 2020-2021 academic year.
- Establishment counts are per the BLS QCEW data.
- Figures may not sum due to rounding.

## FAQ

### What is (LQ) location quotient?

Location quotient is a measurement of concentration in comparison to the nation. An LQ of 1.00 indicates a region has the same concentration of an industry (or occupation) as the nation. An LQ of 2.00 would mean the region has twice the expected employment compared to the nation and an LQ of 0.50 would mean the region has half the expected employment in comparison to the nation.

### What is annual demand?

Annual demand is a of the sum of the annual projected growth demand and separation demand. Separation demand is the number of jobs required due to separations—labor force exits (including retirements) and turnover resulting from workers moving from one occupation into another. Note that separation demand does not include all turnover—it does not include when workers stay in the same occupation but switch employers. Growth demand is the increase or decrease of jobs expected due to expansion or contraction of the overall number of jobs.

### What is the difference between industry wages and occupation wages?

Industry wages and occupation wages are estimated via separate data sets, often the time periods being reported do not align, and wages are defined slightly differently in the two systems (for example, certain bonuses are included in the industry wages but not the occupation wages). It is therefore common that estimates of the average industry wages and average occupation wages in a region do not match exactly.
